

# Expense Tracking

As we all gear up for open enrollment season, there is a lot to do. Knowing this, and in keeping with our mission to be the employee benefits provider that makes it easy, we are happy to provide you with open enrollment email content that you can share with your employees. These messages are here for you to use to help your employees better understand the FSA/HSA benefit and encourage them to enroll this year.

We hope that having this content prepared for you can make open enrollment a little easier. If we can provide any other information or assistance, please feel free to reach out to your Account Manager.

Hi **{{=(First Name)}}{there}}**,

Looking for a way to keep track of your FSA and HSA spending? The Expense Tracker allows you to easily look at your historical spending in your FSA and/or HSA.

Understanding your expense history is key to saving the appropriate amount in your Sentinel account. Check out this tool to plan more accurately for your future spending.

You'll want to create a virtual shoebox of qualified expenses that you can apply for reimbursement against your HSA in future years. Use the Expense Tracker to add expenses and save receipt images. This allows you to maintain a bank of expenses should you have to validate an HSA distribution in the future!
