

Meet Nick Galliano

Nick Galliano

Plan Consultant

About Me

Nick joined Sentinel in October 2024, previously working as a Plan Consultant for a third-party administrator in Tampa, FL. He has been in the industry since 2022.

Nick's main job responsibilities include: working closely with plan sponsors to help them gain a better understanding of the retirement benefits they offer to their employees; completing the required annual compliance testing and allocation calculations; and ensuring the client experience is positive and seamless by providing the highest level of service and support.

Nick explains "It is rewarding to help plan sponsors understand their retirement plan benefits by breaking down the complex compliance topics. I truly value the time and conversations with team members getting to know and collaborate with them daily. And that no two days are ever the same, especially with the ever-changing rules and regulations in the retirement industry."

Educational Background & Experience

- Bachelors of Finance w/minor in Accounting—Eastern Illinois University

Out of the Office

Nick loves to travel and spend time with family and friends.
